

QUARTUM GROUP

EDUCATIONAL VIDEO GAMES FOR YOUR CENTER

Entertainment with a purpose, designed for children.

Turnkey solution: games + hardware + support.

Who are we?

02. Safe, engaging experiences with an educational purpose.

04. We provide game-based educational experiences.

01. We create educational video games to support learning, improve habits, and develop attention.

03. Games supervised by professionals in psychology and pedagogy.

05. Installation, training, and support included to make implementation easy.

WHAT DO WE BRING TO YOUR CENTER?

Building Long-Term Relationships

For the Center

- A differentiated service to offer families.
- Educational content with purpose (not just entertainment).
- Better waiting-room or activity-time experience.
- Easy operation and ongoing support.

For Families

- Safe, controlled content.
- Games with goals: habits, attention, self-control, and logic.
- Positive experience: fun + development.

GAME CATALOG

HOUSE ON CHAOS

- 8 rooms • 6 levels per room • 48+ educational mini-games
- Works on habits, attention, responsibility, and problem-solving.
- Ideal for progressive or repeated sessions.

GAME CATALOG

STROOP

Selective attention • Inhibitory control

- Based on the Stroop effect (used in psychology and education).
- Trains selective attention and inhibitory control.
- Improves speed, accuracy, and cognitive flexibility.
